ried at the Pavilion or the Lafayette, to indulge in dance and song; others climbed to the table-land of the chiff which here frowns upon the river, and which, since the time when the Revolutionary army made it a patural watchtower, has been the scene of the giddy dance of jubilee. Others wound their way up to the Observatory which Mr. Wells has recently erected on the mountain that everhange the Pavilion.

The Observatory affords a parbramic view of New-York and its environs, from an elevation of some six bundred feet. The picture presented is very fine. The tower is supplied with several valuable instruments which enable the visitor to extend his range of vision. So far as the raporter could learn, no accident ocoursed during the day, and but two cases of disturbance took place. At Ciuttenberg, two bibulous persons resorted from the cup to blows, and thence to daggers; and one was shockingly disfigured. His neck was pierced in several places. His assailant was confined in the Hacktusack Jail.

THE UNSAGE BUILDING ACT .- Mr. Greene C. Bronson, Corporation Coqueel, has advised the Mayor that he considers the recent act of the Legislature providing against unsafe buildings, unconstitutional. His priscipal objection is as follows:

principal objection is as follows:

"There is a grave objection to the statute, which cannot be obviated by construction. The Mayor is required to direct the Sheriff to remove, not only the unsafe building, but 'any offer funditing which, 'in the judgment of the Superintendent or Deputy, or such Sheriff it may be necessary to take down and remove to effect the principal object. It must shway be a strong measure, to say the least, to destroy the property of a man who is not in fault, because his wrong doing neighbor has made it as conting the property of the secretary to the public safety. Still, such a power may be good as a police regulation, when the necessity for its exercise is as police regulation, when the necessity for its exercise is self-the sected or apprent, or has been adjudicated by some considered results of these things is required by this law percent tribunal. Neither of those things is required by this law percent tribunal. Neither of these Whome called into court or pulleither actual or appeared, or has been adjacinated by this lawpetent tribunal. Neither of those things is required by this lawthe Sheith, who is merely an executive officer, is anthorized to
seette the questien for himself. When called into court or puling down a good and secure building, he may answer, not that
the destruction was either actually or appeared to necessary to the
public asfety, or that it had been so adjudged by any one clesbut that 'to may judgment it was necessary to pull down your
house to remove the ussafe house of your neighbor,' and that
will be a good plea if the law is valid. I cannot touch that the
Legistature has any such power over the property of indivisors.
I roperty may be destroyed to prevent the spreading of a confisgration or a contagions disease, and in other cases where the act
is essential to the asiety of the people. But the man or executive efficer, who takes it upon himself to decide upon the setual
or apparent necessary, acts at his peril."

CITY ITEMS.

NAME OF STREET OF BUILDING

Showers.—There was a heavy shower on the lower part of the city, and a little sprinkling of the upper part on the Fourth, but it did not extend fifteen miles north sufficient to wet the loose soil half an inch; but on Thursday morning, from 4 to 5 o'clock, the rain came down in a torrent, soaking the earth thoroughly, the first time for weeks, and all day yesterday and far into the night we had a constant succession of sharp showers. Crops bave suffered severely during the drouth, in all the region north-east of this city, extending-we don't know how far. Near the city, the crop suffering most is that of potatous; next, oats, and then the grass in old mowing-lots and hill-pastures. This rain has come just in time to save farmers from despair.

THE SLAVER KATE. - In our last issue, we gave the particulars of the arrest of the bark Kate, on suspicion of being fitted out for the slave-trade. It appears that John Garcia, one of the persons arrested on board the tug Magnolia, is suspected of being the intended Cap tain of the Kate. Capt. Faunce transferred him one of the Marshal's officers shortly after arresting him. Yesterday, Messrs. Beebe, Dean & Donohue obtained a writ of habeas corpus, directing Capt. Faunce to produce the hody of Garcia. The matter came up before Judge Russell, but, without any action being taken, it was postponed. Capt. Faunce has made a return to the writ, to the effect that he bad Garcia in his custody, but that he is not now, having been handed over to the United States Marshal. It is suspected that Garcia's real name is Hearico Da Costa, who, it appears, was arrested three or four years ago for fitting out the alleged slaver Brahmin, and who escaped from the Marshal's officers. Mr. Wilcoxson, the District-Attorney, obtained from Judge Betts a bench warrant upon which Garcia or Da Costa is now held in custody. The Kate was libeled yesterday by the United States. A warrant has been issued by United States Commissioner Newton for the arrest of the crew of the Kate, on a charge of voluntarily serv ing on board of a slaver. The law requires the arreto be made on board the vessel so engaged. The United States Government officers believe that the Kate cleared, and went outside, while the tug took Garcia, her intended Captain, to evade the provision above referred to. An examination will be held to-day.

PROPOSED WIDENING OF CATHARINE STREET. The Committee on Streets of the Board of Councilmen met yesterday afternoon to hear parties interested in the widening of Catharine street, as proposed in a resolution offered in one of the Boards some time since. Nothing was done, in consequence of some papers not being at hand, and the matter was adjourned to next Tuesday. Several persons appeared, however, to object to the opening of the street. They allege that everybody on the street is opposed to it, and say that the origin of the resolution was the driving down Catharine street of a member of the Board, who run into another man's cart and had his own vehicle smashed. Catharine street is an important thoroughfare, and, as all will admit, is excessively crowded at nearly all hours of the day.

THE QUARANTINE DAMAGES COMMISSION. - Yester day the Quarantine Damages Commission resumed the investigation of claims for damages to the property at the Quarantine riots of September, 1858, the Hon.

Elias W. Leaven worth presiding.

Adam Breeze was examined in reference to some articles of kitchen furniture which he had sold to Dr. Thompson, prior to the fire at Quarantine. The remainder of the day was occupied with the examination of Dr. Thompson in reference to the numerous articles, in the different rooms respectively, which were destroyed. In a day or two, the Commissioners, with a view to facilitating the progress of the investigation, will take such further testimony as will be presented to them, at some place or Staten Island, probably at Quarantine. They desire to close up the whole matter as soon as possible.

SEVENTH REGIMENT ENCAMPMENT.-The Seventh Regiment National Guard, under command of Col. Lefferts, having accepted the invitation extended by the President and Directors of the Richmond Club to occupy their grounds on Staten Island for camp purposes, proceeded thither yesterday afternoon, and commenced their encampment, which is to occupy a period of ten days. The arrangement of the camp equipage having been completed on the 4th by the Qua-termaster, the baggage of the soldiers was conveyed to the grounds yesterday morning is several express we gons. The troop attached to the Regi-ment mounted, rode down to the camp at 2 o'clock

p. m. An hour later, the numbers of the Regiment, in fatigue dress, mustered on Lafayette place, and thence marched down Broadway to the Staten Island Ferry, whence they were transported to the ground. A day or two will be occupied in perfecting the requisite arrangements, after which the Seventh will commence in good carnest their camp duty. A pelting, drenching, cold rain followed close upon their heels, and their first night in camp was anything but agreeable.

The older members of the Regiment know from experience the hardships and privations attending a strict camp life, but with the younger nembers of the organization it will be rather tough after the novelty of the positi n wears off.

A large police force under command of Capt. Turnbull has been detailed to attend the Regiment during the period of encampment. Some time next week Governor Morgan will visit the camp, at which time there will be a grand review. The day has not yet been determined upon.

As the Regiment was embarking at the foot of Whitehall street for Staten Island, a cannon, which was being used to fire the parting salute, burst, and seriously injured Mr. Frederick Gilbert, Inspector of Water-Works, John Donelly, a feeder at THE TRIB-UNE office, and John Welch, a boatman. Drs. Cannon and Cheeseman, attached to the Regiment, attended the wounder. Welch was subsequently ent to the City Hospital, and the other two were taken to their homes. Gilbert may recover, but he will lose his evesight. He resides at the Eastern Hotel. Donelly's thumb was shattered while holding it on the touch-

A NEW STEAMSHIP .- The Liverpool New-York and Philadelphia Steamship Company have contracted with Mersus. Tod & McGregor, the celebrated builders, of Glasgow, for a new scamship for their line between Liverpool and New-York. This vessel is to be called the "City of New-York," and will, in size and speed, surpass any of their present fleet.

THE REPUBLICAN CENTRAL CAMPAIGN CLUB. The regular meeting of the Republican Campaigu Club was held at the headquarters, No. 722 Broadway, last evening, Mr. Thomas G. Girwan in the chair.

following resolutions were unar imcusly adopted: Resited, That the Republican Campaign Club has learned with much regret of the decease of our late Vice-President, Israel Williams, who by his carnest devotion to the cause of Freedom, and by his dairly industry and integrity had deservedly resident a high position among his follow-cultures. acquired a high position among his follow-citizens.

Resolved, That the Club deeply sympathize with the family and relatives of the decraved.

The meeting was subsequently addressed at some length by Mr. Marshall, after which it adjourned. BALLOON ASCENSIONS .- At Palace Garden, on

Wednesday, there were three balloon ascensions, commencing at eleven o'clock, Mr. George Wise superintended the inflation of the new and large balloon Venus, and at eleven o'clock his nephew ascended a short distance, being held to terra-firma by 500 feet of rope. After remaining in the air for ten minutes, to the great delight of hundreds of beholders, he was drawn down again, and carefully landed in the Garden. An invitation was then extended to any reporter who might desire to go up, but none were anxious to celebrate the Fourth in the air. The nephew then made a second ascension, and was again drawn down in safety. Mr. George Wise stepped into the basket next; the rope was cast off, and ne went up alone, making a beautiful clear ascension, sailing off slowly to the south-east, and showering

down upon the city hundreds of Palace Garden handbills. Peremained in sight for nearly an hour, high up a mong the clouds, seeming to first over the lower

Pertion of Long Island. ACCIDENT ON THE HUBSON RIVER RAILROAD,-Mr. William Mitchell, formerly a resident of Poughkeepsie, was run over and killed at that place on Weinesday. It is thought he was askep on the track. He was a single man, 30 years of age, and was formerly in the milk business.

PENALE COUNTERPEITERS. -Sergeant Burden of the Eighteenth Ward, last night arrested two women named Bridget Toby and Ellen Collins, for attempting to pass \$5 counterfeit bills on the Bank of Penn Township, Philadelphia, upon several grocerymen. Tae accused were locked up.

SUDDEN DEATH OF A STRANGER.-Last evening, Mr. Sylvester Ostrander, a resident of Westchester County, stepped into the public house, No. 77 Greenwich avenue, and complained of illness. He was removed to a bed-room where he expired in a few minutes, and before medical aid could be summoned.

ST. JOHN'S COLLEGE, FORDHAM.-The National An niversary was duly celebrated in this institution, the friends of the students participating. Orations were delivered by Master John J. Carberry of this city, npon "Washington as a General," and by Master Matthins Hollaban of Brooklyn, whose theme was "Washington as a Legislator."

PROBABLY FATAL SHOOTING.—On Wednesday evening, a crowd of ruffians went into the saloon corner of Fourteenth street and Teath avenue, kept by a man named Gillespie. After eating and drinking what they wanted, they went off without paying. They soon returned, and began beating in the door of the saloon, and finally succeeded. Mr. Gillespie, fearing for his life, took a fowling-piece and fired into the crowd. The shot took effect in the person of a young man, 16 years of age, named Edward McKesven, of No. 45 West. Thirteenth street. He was badly injured, and Police-Surgeon Fisher, who attended him, thinks his condition a critical one. The injured lad was taken to the Bellevue Hospital. Gillespie surrendered himself to the police, and is held to a wait the result of McKeeven's is juries.

Suprosed Science.-On Tuesday night, a neatlooking young woman, about 25 years of age, was found very sick in Fourth street. She was conveyed to the Eleventh Ward Station-House, where she died in the course of the night. Coroner Jackman held an inquest on the body, when a post-mortem examination was made, which resulted in finding a quantity of arrenic in her stomach. It was also ascertained that the was enerinte. On her person were found a number of trinkets and the likeness of a young man. The Jury rendered a verdict of death by arsenic, but were unable to determine how or by whom administered.

THE GREAT EASTERN.—The Fourth was expected to give a large crowd to the Great Eastern, but that crowd was not at the ticket-office. It consi-ted of persons on small steamboats taking a view of her starpoard side from the river, and the usual crowd on the whatf. From what our reporter could learn, not more than from 500 to 600 persons could have been on board throughout the entire day. Yesterday about he same number of visitors were on board. In the afternoon the rain storm helped the dollar fee to keep away visitors. Great exertions continue to be made in the cleaning of the ship. SCROFULA OR KING'S EVIL is a constitutional disease, a corruption of the blood, by which this field becomes withinted, weak, and poor. Being in the discussion, it pervades the whole body, and may beast out in disease on any part of it. Whatever he its origin, it is bereditary in the constitution, describing "from parents to chibiren must the third and fourth generation?" indeed, it seems to be the root of Him who says, "I will wisk the injunities of the fathers upon their chibiren." One quarter of all our people are Screptious, their persons are inveded by this lurking infection, and their health is undermined by it. NEW-JERSEY ITEMS.

THE KIDNAPPING CASE AT JERSEY CITY-THE Missing Man at Home.-Yesterday morning Recorder Tilden of Jersey City secsived a let er from Mr. Bunn, whese sudden disappearance, a short time since, caused considerable apprehension as to his safety. He is now at home in Rathboneville quite ill from rough reage and exposure. He states in substance that he left home on the 11th of June last with about \$1,600 on his person, intending to transact business on the line of the Eric Railroad, also at New-York and Newark. He states that immediately after taking dinner at Turner's Hotel, Owege, he felt very nawell, and was conscious of nothing more until he recollects being scruck on the head because he would not get into a small boat. How long he remained unconscious at that time he does not know, but when he recovered be found himself out at sea in a small coasting schooner. obbed of everything except his watch, which he carried in such a manner that it easily escaped detection. The vessel was an old for -topsail schooner, painted

black. Mr. Bunn thinks that there was a large patch on the fore-topsail. The Captain was a middling-sized man; thinks he would know him. When Mr. Bunn would ask any question in relation to his whereabout, the only answer be would receive was, "Your fare is paid, Sir." The crew consisted of six or seven men, with whom he was allowed no conversation whatever. After being at sea six days, they neared land, and he ascertained that they were on the coast of Florida He was put ashore in a small boat, after solemnly promising not to speak to one of the hands in the boat. Fortuna ely, he reached a planter's house before night, where he was kindly cared for, and, after he had sufficiently recovered furnished funds with which he returned home. From the state of his system, Mr. Boon thinks that he was drugged at the hotel where he took supper at Owego. He does not think the hands on board the schooner knew anything about the ranga tions on shore, nor in fact anything regarding him, except as a passenger. He will visit Jersey Cicy as soon as his health is sufficiently recovered to bear the journey; meantime the authorities of the latter place will take every means to trace out this highhanded outrage, and bring the perpetrators to justice.

ATTEMPT AT MURDER .- A man named Cornelius Eagan of New-York was arrested yesterday and committed to the County Jail by Justice Dwyer, for attempting to take another man's life during a meles which occurred at Weehawken on Wednesday. Eagan gave the man several severe cuts with a knife about the throat an i head. The wounds have not as yet proved fatal.

LAND-SLIDE ON THE NEW-YORK AND ERIE RAIL-HOAD. On Wednesday night a heavy land-slide occarred on the line of the New-York and Eric Railroad. on the Delaware Division, bet ween Deposit and Hankins. The shde was caused by the rain, which descended in terrents in that locality during the night. All of the trains due at Jersey City yesterday were delayed in consequence. A large force of men were

engaged through the day in removing the dirt from the track. Superintendent Taylor informed our reporter that the trains would probably be able to reach Jersey City about 10 o'clock last evening.

Charles Jefferds, who is accused of murdering Mr. Waiton and Mr. Matthews of New-York, on Saturday evening, was formerly employed as clerk or book-keeper in the City Hotel of this city. It will also be remembered that some time since he and Mr. Wm. Compton had a misonderst inding in regard to horse hire, whereupon he drew a pistol on Mr. Compton, for which he was arressed.

[Newark Mercury, July 4.

FOUND DROWNED .- Yesterday aftersoon, the body FOURD DROWSED.—Yesterday afternoon, the body of an unknown womann was found floating in the boy, between the Morria Chuai Dock, Jersey (fity and Ellis's Island. It was brought to the dock and an inquest held by Coroner Garney, the Juty rendering a verdiet of "Accidental drowning." The decreaded was about 40 years of age, five feet six inches in hight, very atout, and was dressed in a calico sack, dust shirt, and shows. She apparently belong 4to some canal-boat or other vessel, and had been in the water but a few hours. The remains were interred in the county ground at Bergen.

were interred in the county ground at Bergon.

ACCIDENTS.—At an early hour yesterday morning, the horse and milk wagon of Daniel Smith were run into by a train of cars at the Green street crossing, Jeracy City, injuring the horse scriously and demolt hing the wagon. About 500 quarts of milk were in the wagon at the time, all of which were emptied into the street. Mr. Smith fortunately escaped injury.

A young lad na ed John Mist, about twelve years of age, was seriously injured at Bergen resterday, by having his leg caught in the wheel of a wagon in which he was riding. Capt. Samuel Ellis, who was passing at the time, extricated the little fellow, and carried him over a mile to the house of a physician, where he received proper attendence.
